

From the Limited Edition
Hand Carved Series

Bacchus

Enjoy a mythical celebration of life with our hand carved Bacchus chandelier. At right is the original antique alabaster fixture carved in Europe and imported to America for a Midwest industrial baron in 1915. You can't own this one, but we have made available a limited number of replicas as shown below. Like the original, the Bacchus is massive in scale and richly carved. This unique work of art will be treasured even more with the passage of time. Available in 24" diameter bowl only. *Subject to availability.*
